

Recommendations for Completing the Lifetime Achievement Award Criteria Section

WIA highly recommends that the nominator take the time to review the specific criteria for the Lifetime Achievement Award and draft a nomination that provides responses to each of the specific level of criteria. For example, for the Lifetime Achievement Award, the criteria, to be weighted equally, is as follows:

- Noteworthy and exemplary contributions to aerospace and defense industry during a career spanning at least 25 years.
- Commitment to professional growth as demonstrated by career path and professional achievements.
- Service as a role model or mentor that shows dedication to the advancement of women in aerospace.

Note: To encourage inclusivity, potential nominees that derive from the same organization as the immediate previous year's Lifetime Achievement Award winner are encouraged to wait at least one year to submit for consideration of this award. If you would like to see the list of past Lifetime Achievement Award winners, please click here: <https://www.womeninaerospace.org/events/awards/past.html>.

A successful nomination will include a written statement that addresses accomplishments for the three points of criteria. The following lists the requirements for the written statement:

- Provide an overall reason for why this person should be nominated to receive the Lifetime Achievement Award
 - This will be limited to 1200 characters (about 200 words)
- Examples of Mentoring and Leadership experiences for consideration
 - This will be limited to 3500 characters (about 600 words)
- Bio of Individual
 - This will be limited to 3500 characters (about 600 words)

*The nominator should feel empowered to have full creative authority in drafting their nomination, provided the nomination stays within **the 1200-3500 character limit** for each requirement.*

For Lifetime Achievement Award nomination submissions, please note that the criteria and submission process listed below will be different from the rest of the WIA awards.
