

Jenny Barna, Director of Launch, Spire Global, Inc.

Jenny Barna is the Director of Launch at Spire Global, Inc., a satellite powered data company headquartered in San Francisco, CA. Jenny's background is primarily in launch vehicle propulsion engineering at Orbital, supporting flight test campaigns for the Ground-Based Midcourse Defense (GMD) missile defense interceptor program. Before joining Spire, Jenny also worked at SSL in Palo Alto, where her focus was geared toward hosted payloads and small satellite constellations. Jenny has a degree in Aerospace Engineering from Arizona State University.
